Curriculum for Learning Definition

Our vision, aim, ethos and culture we create and embrace

What we teach? How we teach ?/ Learners Learn How we assess?

UNIVERSITY of
STIRLING

Curriculum policy – a framework for learning

School Vision & Aims

Nurture, Inspire, Achieve – To be the best we can be

Aims

We will develop and practice our literacy, numeracy and technology skills needed throughout our lives

We aim for all children to be:-

Ambitious, capable learners
Who are ready to learn throughout their lives

We are becoming adventurous, imaginative learners who seek challenge

We learn in a secure and exciting school

Enterprising, creative contributors
Who are ready to play a full part in life and work.

Working with our community inspires us to learn new things

We feel happy, safe and confident with our friends and teachers.

Ethical, informed citizens
Who are ready to be citizens of Wales and the world.

We know and respect our Rights

We learn to understand and celebrate differences and appreciate that we are all equal in our multicultural society and world.

Healthy, confident individuals
who lead fulfilling lives as valued members of society.

We are proud to live in Wales and embrace all that is Welsh

We learn to make lifestyle choices to enjoy a happy, healthy and active life.

Our parents and teachers work together to help us learn at home and school using online platforms.

Nurture, Inspire, Achieve

—

To be the best we can be

Nurture

—

At Llantarnam Community Primary School caring and looking after each other and ensuring wellbeing is central is at the core of all we do.

Inspire

—

enthuse all our pupils and our staff with the love and desire for lifelong learning

Achieve

—

the embodiment of our aims, The Four Purposes
To be the best we can be – always striving for the best

Ambitious, capable learners

Who are ready to learn throughout their lives

Ambitious - *having or showing a strong desire and determination to succeed.*

Capable - *having the ability, fitness, or quality necessary to do or achieve a specified thing able to achieve efficiently whatever one has to do; competent.*

We will develop and practice our literacy, numeracy and technology skills needed throughout our lives

Our parents and teachers work together to help us learn at home and school using online platforms.

We are becoming adventurous, imaginative learners who seek challenge

We have a Growth mindset – a can do attitude, where we believe and promote ‘the sky is the limit’. All are capable of achieving great things in learning day to day and in life.

‘Can do’ – may not know or understand right now, but can given the a growth mindset, opportunities, excellent teaching and the right support underpinned by a culture where we all make mistakes and get things wrong along the journey and that’s okay and part of the process.

We support the learners to develop perseverance, resilience, determination and self-belief.

We celebrate, praise and reward facing and rising to challenges where this leads to success or further effort and support.

Pupils have opportunities to go it alone with challenges through Time to Shine in lower and middle phases and Challenge Time in upper phase.

Through rich authentic themes and special times and events cross curricular learning linked to real life enable links and connections across AoLE’s and core responsibilities enable the learners to make connections and transfer and apply learning (relating experiences, knowledge and skills) in different contexts.

Questioning is key to learning, problem solving secures learning and develops independence and resilience.

We encourage learners to ask questions and problem solve in all contexts.

Questions through pupil voice lead the direction of theme learning in school and at home. Inquiry questions and problem solving lead the achievement of intended learning through facilitation and the development of various skills for example scientific investigation skills and mathematical reasoning skills.

Speaking and Listening skill development and practice in English and Welsh are interwoven throughout the curriculum and daily life at school, as well as taught incidentally and or intensively through intervention as required.

Through effective use of Assessment for Learning strategies particularly questioning and self and peer reflection and evaluation learners are continuously provided with opportunities to reflect on and explain their thinking, learning and understanding.

Number is taught directly through Big Maths CLIC and applied through Numeracy, Reasoning and across the curriculum mainly through wider maths, including the interpretation of data and maths concepts.

Our provision for technology is excellent and effectively used where appropriate across all areas to support the achievement of and record evidence of learning. Technology to communicate is also used effectively throughout the life of the school.

Facilitated learning through enquiry questions, problem solving and time to shines and time to challenge enables the development of research and supported by AFL the analysis of learning achieved.

Enterprising, Creative Contributors

Who are ready to play a full part in life and work.

Enterprising -having or showing initiative and resourcefulness.

Creative- relating to or involving the use of the imagination or original ideas to create something.

**Working with our community
inspires us to learn new things**

**We learn in a secure and exciting
school**

Our rich authentic theme learning enable our learners to connect and apply knowledge and skills to develop ideas and create products and express their ideas and emotions through different media.

Facilitated learning through questioning, problem solving, investigating and independent challenges leads to opportunities to think creatively, identify and take opportunities and take measured risks.

Our culture where making mistakes is an important part of the learning journey supports the learners to feel confident to take measured risks and the promotion of supporting each other's learning provides opportunities to challenge the ability to explain learning and our culture where we all help each other.

In classes and the life of the school our pupils are given opportunities to take on roles and responsibilities.

Ethical, Informed Citizens

Who are ready to be citizens of wales and the world.

Ethical - relating to moral principles or the branch of knowledge dealing with these.

Informed - having or showing knowledge of a subject or situation.

**We learn to understand and celebrate
differences and appreciate that we are
all equal in our multicultural society
and world.**

**We are proud to live in Wales
and embrace all that is Welsh**

**We know and respect our
Rights**

Our rich, authentic real-life themes, special events, days and focused weeks build in contemporary issues which build knowledge and values and alongside take opportunities to use events and situations that occur incidentally to build pupils experience, knowledge and skills. These support the pupils to evaluate, form views, develop an understanding and be able to understand and exercise their human and democratic rights, consider their choices and actions and the impact of these and build values.

We celebrate and respect differences and openly welcome the opportunity to learn about and from each other within our diverse society.

We take incidental as well as planned and structured opportunities to learn about our past and modern-day community and culture and Welsh language as well as cultures around the world.

And the ways we need to work together and independently to support the sustainability of our planet.

**Healthy, confident individuals
who lead fulfilling lives as valued members of society.**

Healthy - in a good physical or mental condition; in good health.

Confident - feeling or showing confidence in oneself or one's abilities or qualities feeling or showing certainty about something.

We learn to make lifestyle choices to enjoy a happy, healthy and active life.

We feel happy, safe and confident with our friends and teachers.

Our Relationships policy underpinned by the teaching of values in particular trust and mutual respect is the core to supporting wellbeing and all we do.

The wider teaching of values, spiritual and ethical beliefs through our every day life and work of school, incidentally as part of our Personal, social, emotional development / Wellbeing and Religious Education through theme and assemblies.

Our three tiers for wellbeing provision and teaching build mental, emotional wellbeing developing confidence, resilience and empathy as well as enabling pupils to develop the ability to manage their lives as independently as appropriate to their level of development.

Physical activity and the promotion and teaching and healthy lifestyles are built into everyday life as well-structured teaching and learning development, this includes the impact of diet and exercise on physical and mental health, and how to keep safe and well which supports the ability to take measured decisions and manage risks

Our culture of facing rising to challenges, its okay if we don't succeed gives the pupils the confidence to participate in performance.

School Development Council - Developing Characters and stories which embrace 4 purposes

Foxy

Kermit

Professor Hoot

McNut

Oreo

Floppy

Sonic

Our School Development Council have created personalities for our characters who live together in Coed Llantarnam to help us learn about the four purposes for Learning

Pupils in our Upper and Middle Phase are writing stories to bring our characters to life.

They will be sharing these with our pupils in the lower phase.

Resources

We are a Rights Respecting School
All classes create a class charter
based on their rights, making
promises to show respect.

A Culture of- Wellbeing, Inclusion, Equity & Equality

Please also refer to our Relationships Policy, Strategic Equality Policy, Accessibility Policy, Anti-Bullying Policy and Charter, Collective worship, Respect and Resilient Audit and ALN policy

**Effective relationships based on trust and respect are fundamental to any
success with learning**

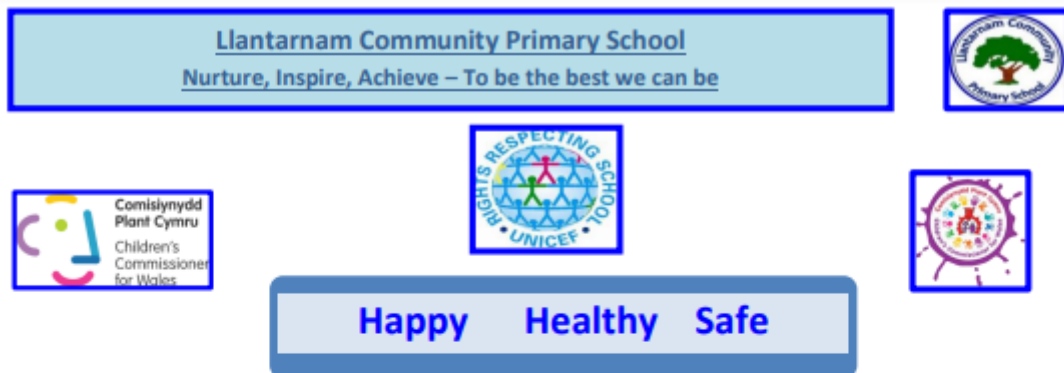

If a child does not feel happy and safe – they will not be able to learn

Behaviour for Learning

Friendships
Getting on, Falling out
Anti-bullying

We are a Rights Respecting School.
We teach children their rights and to respect them

Month	Children's Right	SEAL /Jigsaw
January	To the best possible health (Article 24)	Going for Goals
February	To join in, including children with disabilities. (Article 15, Article 23)	Dreams & Goals
March	To be proud of your identity (Article 30, Article 7)	Good to be me Healthy Me
April	Everyone should know about children's rights (Article 42)	Relationships
May	To a good standard of living (Article 27)	Relationships
June	To have your say and be listened to (Article 12, Article 13)	Changes
July	To relax and play (Article 31)	Changing Me
August		
September	To an education, to learn (Article 28)	New Beginnings
October	To be the best you can be (Article 29)	Being me in my world
November	To be safe from harm and be treated with kindness (Article 19, Article 2)	Say no to Bullying Celebrating Difference
December	To follow your own religion (Article 14)	Getting on and Falling out

Provision for Effective Relationships

1 – Pupils whose emotional and social development is within the average range for their age therefore our class charters / Good to be Green and rewards support them to operate successfully. These pupils have and are not experiencing the effects of trauma

Two Hands Approach

Hand One

Provides warmth and nurture, and allows children appropriate autonomy matched to their developmental age

Hand Two

Provides structure and boundaries

(Dan Hughes)

Rules – Promises

Establish Expectations

Signal, pause, insist

Positive Framing

Rehearse Routines

Positive Relationships

Rewards

Consequences

2, At times some pupils who have been successful personally, socially, emotionally and academically with our main strategies experience challenge which leads them to need the strategies we provide outlined in 3. Often this is a short-term requirement but at times this becomes part of their long term provision.

3, - Supporting children with difficulties with emotional regulation / personal, social and emotional development challenges – result of trauma or a ALN

Show empathy to the child
Situation and feelings

Tell yourself:- they are doing this because they are operating in hyper arousal which makes it hard to regulate themselves.

This leads to toxic stress which leads their brain to working mainly in survival mode making it extremely hard to reason and even listen attentively.

If they are not operating in toxic stress
WINE / PACE may be effective

W – wonder
I – imagine
N – notice
E – empathise

I'm sorry you are upset

When beginning to regulate / regulated / making a good choice demonstrate empathy to how they felt /feel using

P – playfulness
A – acceptance
C – curiosity
E – empathy

=

Firm on behaviour
Gentle on child

Two Hands Approach

Hand One

Provides warmth and nurture, and allows children appropriate autonomy matched to their developmental age

Hand Two

Provides structure and boundaries

(Dan Hughes)

Avoid giving attention to the behaviour as much as possible – praise others / move others

Impossible to ignore –
Language- No Thank you (never say please)
Redirect – give choices

Follow Positive handling Plan
&
Risk Assessment

Firm on the behaviour – not excepting
Safety of pupils and staff put first

We have - 3 tiers of Wellbeing Provision –

Equity

To provide every pupil with the very best opportunities to be the best they can be often requires additional or enhanced provision for some pupils.

Provision to provide equity:-

- Intervention programmes for core skill development
- Nurture
- Family Engagement
- Partnership working – Kindness in the community
- PTA – uniform recycling
- Links with outside agencies to support families and pupils

Equality & Inclusion

All pupils are provided with the same opportunities, curriculum and provision and where required additional resources and differentiated provision through our universal provision or where required to provide for individual needs through our targeted provision to ensure all pupils needs are met and all are provided with equal opportunities and curriculum.

Universal provision – provision provided often on an individual, group or class level to ensure all pupils needs are met and all can access all opportunities and all aspects of our curriculum.

Targeted Provision – additional provision within the mainstream setting or outside to provide equity and or provide for and support individual needs to achieve equality and inclusion.

Curriculum Content - What we teach?

Curriculum for Wales –

A Culture and Whole school approach

Four purposes – planning – teaching content - Themes

Core Skills / Cross Curricular Skills

We plan from and to the four purposes of learning covering learning from across the **six AoLEs, What Matters** and using the **descriptors of learning** to pitch level and depth of **learning experiences, knowledge and skills**.

Rich authentic whole school themes incorporating purposeful real-life contexts as well as learning through special events days and weeks enabling a **Cross-Curricular** (AoLE) approach building in the practice and development of literacy, numeracy and digital competence.

(see planning formats below)

Llantarnam Essentials

Support consistency and progressive practice in relation to core skill development – personal, social, emotional development, speaking & listening, reading and writing in English and Mathematics.

(see 6, Bringing together What we teach? How we teach? and How we assess – through our essentials)

Pupils Leading Learning

Engaging our pupils by capitalising and building on their interests (as well as how they love to learn – see pedagogy) is fundamental to our curriculum.

Through choosing broad authentic themes we immerse the pupils to deepen their experiences, knowledge and skills before engaging them in sharing where they would like to take the learning. Teachers in phase teams plan these areas of learning ensuring they are providing the coverage and breadth of experiences, knowledge and skills, across all AoLEs and the descriptors of learning at the appropriate level, allowing and enabling depth of practice and learning as well as appropriate progression.

5, Planning

Long Term Planning – Rich Authentic themes

Llantarnam Community Primary Spiral Curriculum									
	Autumn			Spring			Summer		
	Me and My Context The Best of Me			Me and the World Our Planet, Our Home			Me and My Future GROUNDBREAKERS & CHANGEMAKERS		
Phase/ year	Special times, events and Weeks	Theme	Christmas	Special times, events and Weeks	Theme	Eisteddfod	Special times, events and Weeks	Theme	Enterprise
P1A	New Beginnings/ Being me in my world	All about me		Going for Goals / Dreams and Goals	Our beautiful Home		Relationships	Once upon a time	
P1B	Roald Dahl Day National Poetry day	As I Grow		Chinese new year St Dwywnwen's day	Urdd – carnivals		Sports Day	Light bulb moments	
P2A	Jeans for Genes Children in Need	Happy from the inside out		Safer internet day	Care for the world – Blue Planet			Just a Spark	
P2B	Black History Month	My busy Body		Pancake Day	Urdd - Global Gourmet	Kerb Craft / Safe Cycling Walk to school week	Mission space		
P3A	Harvest	It's my right!	Lent	Care for the world – The Skies above our eyes	Possibly switch?		Full steam ahead		
P3B	Bonfire Diwali	Blood, Bones and body bits	Easter St David's Day	Urdd– our local community	Mental Health Awareness Changes / Changing Me	AI			
P4A	Getting on & Falling out / Say NO to bullying (anti-bullying week)	Impossible is Nothing!	World Book Day	Care for the world – rainforests				Blitz My Time in Primary – Leavers	
P4B	Celebrating Difference	Healthy Body, Healthy Mind, Healthy Me	Holi Good to be me / Healthy Me Healthy Me week?	Urdd – our Welsh Footprint					
Science & technology		Health & Wellbeing		Humanities		Expressive arts – transpires all themes			

Planning 2022-23

Long Term

1. Cluster Curriculum Documents for each AoLE
2. Rolling Programme of Rich Authentic Themes - whole school and or phase
3. Annual Special Days, Events and Weeks
4. Tracking curriculum experiences, knowledge, and skills across AoLEs – what Matters and Descriptors of Learning through Theme Learning
5. Tracking curriculum experiences, knowledge, and skills across AoLEs – what Matters and Descriptors of Learning through Special Days, Events & Weeks
6. Tracking coverage of LLC and Maths & Numeracy
7. Tracking coverage of Literacy, Numeracy & Digital Competence

Medium Term

Power point or Slides – termly Themes, Special Days, Events and Weeks

1. Theme – Immersion learning activities
Immersion Homework
Pupil Voice
Planning from and to the Four Purposes and coverage of AoLEs
Teaching tools
2. Special Days, Events and Weeks - Planning from and to the Four Purposes and coverage of AoLEs
3. Termly Overview (weekly organisation for special events, days, weeks and theme)

Short Term

Power point or Slides – to support pedagogy

- 1, Maths CLIC (number and calculation focused with the inclusion of wider maths (shape, space & measure) and reasoning
- 2, Maths Reasoning
- 3, Genre focused Big Write (including the breath of all English skills – S&L, Reading and Writing)
- 4, Theme (including cross AoLE learning and Cross Curricular Responsibilities)
- 5, Special Days, Events and Weeks (including cross AoLE learning and Cross Curricular Responsibilities)
- 6, continuous provision planning – time to fly / I time
- 7, enhanced /independent learning planning – time to shine / challenge time

How we teach? Pedagogy

Blended Approach

Direct teaching, Facilitated Learning, Independent Learning

All teaching and learning is driven by and underpinned by
assessment for learning

Teaching caters for all learning styles by being multi-sensory
Timetabling is flexible.

Learning sessions are varied in length. Longer learning sessions are
chunked – interspersed by wellbeing brain breaks.

Class Management is centred on our :-

Relationships policy, supported by Class charters outlining the
children's Rights and the Promises they make to show respect for
their rights and rewards and consequences

Class Organisation is varied and driven by the intended learning experiences, knowledge and skills.

Effective Learning environment support all types of teaching and learning across all AoLE's

To support continued pedagogical development, we evaluate and work to develop across the

12 PEDOGOGICAL PRINCIPLES

1. Focuses on the 4 purposes of the curriculum.	2. Challenges pupils to sustain their efforts to reach high but achievable targets.	3. Employs a broad repertoire of teaching approaches.
4. Promotes problem solving, creative and critical thinking.	5. Builds on previous knowledge and experience and engages pupils' interest.	6. Creates authentic contexts for learning.
7. Employs assessment for learning principles.	8. Makes connections within and across Areas of Learning and Experience.	9. Reinforces Cross-curriculum responsibilities including literacy, numeracy and digital competence.
10. Encourages pupils to take ownership of their own learning.	11. Supports social and emotional development and positive relationships.	12. Encourages collaboration.

Class Learning Journey evaluations and assessments inform and guide pedagogy

4	Next steps

Timetabling

- Where needed timetabling operates across a phase
- Timetabling learning sessions is flexible as much as possible
(this means that one learning session could run across a morning, day or whatever suits the learning required)
- We believe that we all like to know what is happening and when and for some of learners with specific needs this is paramount. Therefore, all classes have a share a visual timetable daily.

Daily visual timetable

- For some of our pupils a now and next timetable is required and used consistently.

- Staff also record their daily timetables in their Learning Journey Books – to support their evaluation and assessment notes and other members of staff who may need to step in and take over at short notice

Learning and Teaching Recipe

What?	Why?	How?
Planning		
Planning – what?	To ensure appropriate standards and age appropriate.	Using curriculum orders - AoLE's, What Matters and descriptors of Learning, pupil voice and Authentic Theme

Stemmed from The 4 Purposes Subject knowledge, challenge and expectation AFL	Experiences are provided Knowledge, Skills are acquired We need to be clear what the children are learning, experiencing or practicing We need to be clear about the requirements to be successful	LNF/DCF – application through other subjects THINKING ~ metacognition Nod  To be successful  Child friendly Concise & clear Practice makes Perfect
Planning – How?	To ensure pupils are engaged and are provided with appropriate support Ensure learners are provided with enough support to	Facilitation / Timings / Groupings Multi-sensory / use of resources (including staff) Questioning
Differentiation Challenge and Expectations	Removes the barriers to learning Supports Equity	Tools to support achievement of the same outcomes – achievement for all. Consider Universal specific and targeted provision
All day, everyday		
Relationships, Wellbeing and Behaviour for Learning <i>Behaviour for learning and wellbeing</i> <i>Learner Participation</i>	To ensure all children are:- Comfortable, Happy, Confident To ensure:- Engagement, Enthusiasm and Effort All pupils are:-Ready, Able & Want to LEARN	Know and adhere to the agreed class charter Listen attentively Engage with class, group, pair and individually Daily and visual time table used Complete all tasks with effort and enthusiasm Assertive discipline/GTBG/Dojo's and stickers Feel confident and happy to engage knowing it is okay to make mistakes and get things wrong.
During teaching and Learning sessions		
AFL Assessment for Learning <i>Assessment</i>	The pupils know:- What they are learning How well they are doing along the way? What they have learnt The next steps in learning	Sharing new learning, new development in learning, Practicing Learning– at the best time Revised & revisited throughout and beyond lessons Nod  To be successful  Questioning Self and Peer assessment mini and or final plenaries Formative Feedback
Pedagogical skills PACE	To keep the learning on track, the pupils engaged	Chunked learning, quick transitions, movement and variety Brain Breaks and Daily Active 5 Flexible timetable
siarad cymraeg	To support development of BILINGUALISM	Teacher/TA and pupil use of incidental and conversational welsh. Use of Helpur Heddiw
Dynamically assessing, evaluating and adjusting as the learning session/s go		
And finally where do you need to go next		

What are we Learning?

– We are learning to.....

- To be successful

What are we Learning?

Nod – We are learning to.....

Success Criteria - To be successful

Sometimes we just need to practice

Practice makes Perfect

If you get stuck or are finding learning hard.....

1- Brain

2- Buddy

3- Boss

How are we doing along the learning journey?
Do we understand how to continue the learning journey
independently, with a partner or group?

When considering how successful we are being or we have been:-

Our teachers will
ask questions to
check how well we
are doing.

Our teachers will
give us feedback

Our teachers will ask
questions to help
move our learning
forward

Nurture, Inspire, Achieve – To be the best we can be

Effective Pedagogy for Teaching (ETLF made bespoke)

Name:	
BEHAVIOUR FOR LEARNING AND WELLBEING	<p>Teachers:-</p> <ul style="list-style-type: none"> ➤ Have established effective relationships and safe conditions for learning at all times. ➤ Employ effective strategies to ensure pupils' wellbeing, including universal provision. ➤ Established and reinforce clear boundaries and expectations following the schools Relationships policy based on UNCRC and Good to be Green ➤ Consistently apply strategies for managing and improving behaviour. ➤ Establish clear routines and practices to develop pupils' independence and responsibility. <p>Learners</p> <ul style="list-style-type: none"> ➤ Pupil thrive in a positive atmosphere with successful relationships have been established with clear trust and respect and contribute to a safe positive learning environment ➤ Accept and respond positively to Good to be Green system & associated rewards. ➤ Respond positively to instructions and requests. ➤ Contribute to a safe, positive learning environment. ➤ Enable others to learn and thrive in an atmosphere of trust and respect. ➤ Are ready to learn and allow learning to proceed without interruption or disruption. ➤ Are confident, self-assured learners. ➤ Understand how to keep themselves safe. ➤ Can make informed choices about their physical, emotional and mental wellbeing.
PROGRESS AND STANDARDS	<p>Teachers:-</p> <ul style="list-style-type: none"> ➤ Pitch the level of learning appropriately to the class / groups / individual pupils ➤ Show an understanding of the expected standards and progress are for pupils at all levels. ➤ Plan learning so that it extends learners' capacity incrementally and builds upon previous knowledge and understanding ➤ Provide opportunities for pupils to apply previously taught literacy, numeracy, digital competency and thinking skills at the appropriate level. <p>Pupils:-</p> <ul style="list-style-type: none"> ➤ Learning evidences expected / good progress (within sessions / over time) ➤ All learners (including vulnerable groups such as ALN, EAL/NTE, LAC, FSM) learn well and make progress from their starting point. ➤ Demonstrate skills, knowledge and understanding appropriate to their age and ability. ➤ Develop and apply literacy, numeracy, digital competency and thinking skills.
Assessment, Reviews and Evaluation	<p>Teacher:-</p> <ul style="list-style-type: none"> ➤ Uses AFL essentials and other supporting strategies to plan and share appropriate learning objectives and success criteria, (set challenging and appropriate targets for pupils.) ➤ Ask appropriate questions throughout to check for understanding, progress and achievement of learning ➤ <i>Check understanding and intervene where necessary.</i> ➤ <i>Listen to, observe and question groups and individuals to reshape tasks, develop vocabulary and deepen understanding.</i> ➤ Provide formative feedback – orally and in written form to move learning forward. ➤ Support the learner to be able to understand the requirements and achievements – through effective self and peer assessment. <p>Learners:-</p> <ul style="list-style-type: none"> ➤ Reflect on their behaviours and their contribution to development in learning. ➤ Reflect, evaluate and celebrate their progress and achievements in learning at appropriate level. ➤ Develop assessment skills of self and peer assessment, respond to feedback – orally or written

	<ul style="list-style-type: none"> ➤ Play a part in target setting and show commitment to reaching targets (where age appropriate). ➤ With support understanding their next steps in learning and what they need to do to make further progress.
LEARNER PARTICIPATION	<p>Teachers</p> <ul style="list-style-type: none"> ➤ Give real value to learners' opinions. ➤ Where appropriate give learners a voice in planning learning activities and identifying success criteria. ➤ Develop learners' skills in assessing their own and others' learning outcomes. ➤ Use groups in problem solving activities which require collaboration, cooperation and participation from all. ➤ Build a classroom community through informal dialogue or more formal meetings to discuss issues. ➤ Ensure all learners have the same chance to participate. ➤ Discuss issues which help or hinder learning with individuals and groups and take action accordingly. <p>Learners</p> <ul style="list-style-type: none"> ➤ Understand that their views are valued and taken seriously. ➤ Know how to and support themselves with their learning ➤ Show enhanced self-esteem and motivation, develop personal, social and organisational skills, and become familiar with group and democratic processes. ➤ Develop leadership skills. ➤ Have and say and work together with peers and adults as partners to ensure that their school provides the best possible learning environment for all.
SUBJECT KNOWLEDGE, CHALLENGE, EXPECTATIONS AND DIFFERENTIATION	<p>Teachers</p> <ul style="list-style-type: none"> ➤ Use incidental welsh consistently and effectively and encourage the development of conversational welsh ➤ Have consistently high expectations of all pupils. ➤ Have secure, up to date, subject knowledge. ➤ Act consistently as good learning models. ➤ Plan learning based on prior skills and knowledge ➤ Plan and set challenging tasks for all pupils, matched to their ability, which encourage the application of learned skills in new situations. ➤ Provide learning which interests, stimulates and challenges pupils to persevere and achieve. ➤ Provide learning experiences which develop independence, confidence and self-esteem. ➤ Use targeted support and intervention effectively. ➤ Provide and use appropriate resources, including latest technologies to promote effective learning. ➤ Use questioning effectively. ➤ Promote self-motivation and resilience in solving challenging problems. <p>Learners</p> <ul style="list-style-type: none"> ➤ Respond positively to high expectations and have high expectations of themselves. ➤ Produce work of a high standard given previous skills, knowledge and understanding. ➤ Enjoy challenge in learning and the opportunity to apply newly learned skills and develop new ones. ➤ Recognise the need for, and respond to, support when appropriate to cement their learning or to move their learning on. ➤ Make best use of all resources, including adult help, to aid and extend their learning. ➤ Are motivated, willing and ready to learn. ➤ Work productively and demonstrate resilience and perseverance. ➤ Collaborate and cooperate with other learners. ➤ Understand that sustained effort is needed to bring about sustained success in their learning.
THE LEARNING ENVIRONMENT	<p>Teachers ensure: -</p> <ul style="list-style-type: none"> ➤ Llantarnam Essentials for effective learning environment established ➤ Learners use the environment consistently and to support and extend their learning. ➤ Provision/areas and Resources are available and accessible to support learning effectively within planned learning activities ➤ Four purposes and AoLEs are evident throughout the learning environment ➤ The environment scaffolds, supports and develops learning. ➤ Clear and consistent routines and practices are established <p>Learners -</p> <ul style="list-style-type: none"> ➤ Understand and use Llantarnam essentials, working walls and provision/areas and resources for independent learning. ➤ Understand and follow agreed routines and practices within the setting. ➤ Play a role in developing and managing the environment. ➤ Show respect for the environment in their treatment and care of resources and materials. ➤ Identify, analyse and reflect on their ability to develop their own learning. ➤ Articulate the way their own organisational skills are developing to ensure they take growing responsibility for their own learning. ➤ Use the support tools to support their development of welsh language and culture
CREATING AUTHENTIC LEARNING	<p>Teachers</p> <ul style="list-style-type: none"> ➤ Provide learning experiences which develop creativity and confidence. ➤ Encourage learners to use their capabilities to the full and demonstrate ambition. ➤ Demonstrate relevant knowledge of subject pedagogies and disciplines. ➤ Use a range of blended teaching strategies to generate high levels of enthusiasm and engagement and bring learning to life.

	<ul style="list-style-type: none"> ➤ Use a range of varied and appropriate environments to make learning experiences real and authentic for all learners. ➤ Ensures authentic learning experiences embed and extend learning through application of concepts and skills. ➤ Provides experiences which build on and extend previous knowledge and understanding. ➤ Use cross curricular themes to build learners' knowledge and understanding of inter-subject links. ➤ Use Welsh frequently in informal and formal situations in a wide range of contexts. <p>Learners:-</p> <ul style="list-style-type: none"> ➤ Show readiness and enthusiasm for learning. ➤ Are ambitious for themselves and recognise the need to persevere to produce the best outcome. ➤ Show creativity in individual and group learning. ➤ Are able to work as part of a team, demonstrating ethical behaviours. ➤ Recognise and develop their knowledge of similarities and differences in subject language and disciplines. ➤ Can articulate learning within specific subjects and make connections with other subject areas. ➤ Respond to and initiate the use of Welsh language in a range of contexts.

Assessment, Feedback and Marking & Pupils Targets

Assessment is an intrinsic thread through all pedagogy.

Assessment for Learning is the core to our pedagogy

Through effective planning of appropriate learning objectives, sharing and assessing and evaluating against them with our pupils throughout the learning process we know what each pupil has learnt and what they need to learn next.

Our AFL musts provides agreed effective strategies and our Assessment for Learning at Llantarnam document provides greater variety and breadth of strategies teachers use when appropriate.

Using effective AFL strategies staff feedback to pupils and involve pupils in this process continuously throughout learning sessions.

We also use marking to feedforward, to celebrate and assess achievement in learning where appropriate.

Pupils are provided with individual target in core areas of learning.

Assessment for Learning Strategies Llantarnam

Questioning

Strategies for all ages/phases	<ul style="list-style-type: none"> Thinking time - increasing waiting time – for answers Children formulating and using questioning throughout lessons Answering children's question with a question Choice of answers A,b,c,d No-hands-up Think –pair share Talking partners Poker face Random Partners Statements – which provoke questions
Lower Phase	<ul style="list-style-type: none"> Responding to teachers questions appropriately. Teacher extending range and open ended questions to increase details Begin to learn to read and use in turn – Who, what, when, where, why-how? Hot seating teacher in role
Middle Phase	<ul style="list-style-type: none"> Teacher extending range and open ended questions to increase details Secure understanding and use of – Who, what, when, where, why, how? Phone a friend / ask the audience Hot seating – teacher in role – to children in role Big Questions – We ask Big Fat Juicy Questions Post it walls – with structure/guidance –question starters / question trees Collaborating in formulating questions 'GOOD QUESTIONS' Quescussion
Upper Phase	<ul style="list-style-type: none"> Collaborating in formulating questions 'GOOD QUESTIONS' Post it walls/question trees Basketball not ping pong Learners sets questions QuADS Quescussion Source square x – suitable for lower KS2

Activities for Peer and Self-Assessment

Strategies useful at all levels	<ul style="list-style-type: none"> Mind-mapping Clouds Talk partners
Lower Phase	<ul style="list-style-type: none"> Thumbs up –down Self and peer celebration sentences e.g. I am proud of you because _____ I am proud of myself because _____ (1 star and wish) tickled pink/green for growth / star/wish
Middle Phase	<ul style="list-style-type: none"> Thumbs up-down – traffic lights KWL grids – knowledge harvest Peer feedback – against success criteria 1 star and a wish / tickled pink – green for growth - for star and wish Reflection Triangles
Upper Phase	<ul style="list-style-type: none"> Lily-pads Peer –feedback /marking against success criteria (2 stars and a wish) PMI diagrams Post it challenge Reflection triangles Self-marking / - (needs to be planned across y1-6 progressively) Triangles 2 stars and a wish Traffic lights Caterpillar Exam question analysis Exemplars Graphic organiser to monitor progress KWHL –grids Questionnaire Learning Logs Peer marking against success criteria Stepping stones PMI diagrams Post it challenge

Formative Feedback Activities

Strategies for all phases/ages	<ul style="list-style-type: none"> Adhere to school marking policy ensuring children recognise and understand codes and follow 'Close the Gap' marking principles at appropriate level for individuals – Feedback Sandwich' and 'Close the Gap Prompts' Mini – plenaries – formal feedback (alongside personal and peer reflection) throughout the lesson – instant feedback – relating to the LI/SC Mini-white boards Exploring mistakes /wrong answers
Lower Phase	<ul style="list-style-type: none"> Re-cap and teacher summary of previous achievements and new targets to work towards shared at the start of each group based activity Instant feedback - learners responding to and act upon feedback throughout all group activities Marking to success criteria Next step – teacher led
Middle phase	<ul style="list-style-type: none"> Allow Time – Reflection on Feedback – reflect on marking / read comments, respond in appropriate format MKO – more knowledgeable other Next step – mainly teacher led / with children offering suggestions Self-marking highly structured / temporary comments - purple pencil/pens Wrong answers collected and used 2 stars and a wish Review of summative tests
Upper Phase	<ul style="list-style-type: none"> Allow Time – Reflection on Feedback – reflect on marking/comments and respond by correcting /answering questions set MKO – more knowledgeable other Next step – peer led with teacher guidance Peer marking/ temporary comments Self-marking – against SC Wrong answers collected and used 2 stars and a wish Review of summative tests

- Reflection triangle
- Self-marking
- Success Book

Tell me what / how you've learned – using specific skills

This was tricky.
I need the success criteria to be made simpler so that I can practise and achieve.

I can achieve the success criteria with some help from my friend or teacher.
I need more opportunities to practise.

I achieved the success criteria.
I can teach what I have learned to someone else.

Llantarnam Community Primary School
Nurture, Inspire, Achieve – To be the best we can be

All learning is reflected and evaluated in order for the pupil and teacher to know what has been achieved and the next steps
This is undertaken through

Self – evaluation and or marking
 Peer – evaluation and or marking
 Teacher – assessment and or marking
 Where appropriate next steps will be recorded through teacher marking

We mark to celebrate learning,
 assess learning or feedback to move learning forward.

			Increasing effectiveness as a learner				
Principles of Progression for each AOLE		Health & Wellbeing	LLC	Expressive Arts	Science & Technology	Humanities	Maths & Numeracy
	Increasing effectiveness as a learner	Learners progress by developing their independence and agency in matters relating to health and well-being: resulting in a growing responsibility for their own health and well-being. Support from peers and supporting adults is an important enabler of progress and as learners progress in an aspect of well-being, progression includes developing the capacity to recognise when help is needed, and where and how to seek that support. Increasing effectiveness also means increasing self-	As they move along the continuum of learning, learners will build on basic linguistic skills to develop a capability that enables them to overcome a range of communicative challenges successfully. These include, for example: asking increasingly sophisticated questions finding information independently making evaluative and critical judgements about the ideas and viewpoints and the means of	Progression is demonstrated in moving from doing something with support towards autonomy and sophistication. Progression is likely to grow out of gradual use and re-use of known skills, but could also, on occasion, present as a big qualitative jump. As learners make progress they increasingly evaluate	Problem-solving and design tend to be iterative; the development of skills-related resilience and self-efficacy become important to enable learning through a 'trial and improve' approach. Through this learners develop their application of skills, as well as resilience as they understand the benefit of failure in this Area to discover new ways of doing things. Over time there is an increased independence in learning, including interdependence in peer group	As learners make progress within this Area, they will be asking increasingly sophisticated enquiry questions. They will show a greater independence in finding suitable information, making informed predictions and hypotheses, and making judgements	Conceptual understanding Mathematical concepts and ideas should be built on, deepened and connected as learners experience increasingly complex mathematical ideas. Learners demonstrate conceptual understanding through being able to explain and express concepts, find examples (or non-examples) and by being able to represent a

		regulation: recognising their feelings and adopting strategies to respond to these in a healthy way. As learners develop progression in effectiveness will include a developing ability to make, justify and evaluate decisions across the range of statements of what matters.	communication in what they hear, read, and view using language effectively to convey their own ideas and viewpoints on various topics. They will develop the language skills necessary to discuss and evaluate their learning in languages.	and create more and more sophisticated creative work independently and with increased collaboration with others. They gain greater confidence by being able to explore, experience, interpret, create and respond through the expressive arts' disciplines within a safe environment. Their evaluation of their own and others' work reflects a developing understanding of process as well as product, and resilience in receiving, and persistence in acting upon feedback.	learning. Learners should develop an awareness of their increasing sophistication of understanding and an ability to regulate their own thinking	including about reliability and utility. They will also become more able to effectively work with others, especially, but not limited to, taking part in social action.	concept in different ways, flowing between different representations including verbal, concrete, visual, digital and abstract. An increasing breadth of knowledge is achieved through the learners being introduced to new mathematical concepts. Depth of knowledge is achieved through learners being able to represent, connect and apply a concept in different ways and in different situations. The concepts that learners are introduced to will become increasingly complex, and understanding the way in which concepts connect will contribute to a growing understanding of the ideas within this Area. An understanding of how mathematical concepts underpin learning help learners make connections and transfer learning into new contexts
	Increasing breadth and depth of knowledge	Progression will mean learners developing an increasingly sophisticated understanding of the fundamental concepts outlined in the statements of what matters and of a range of aspects, topics and issues relating to their health and well-being and that of others. Progression will require learners to revisit aspects, topics and issues, developing knowledge at a deeper level. Learners' knowledge of these aspects also progresses from the concrete to the abstract: understanding consequences, implications and underlying	Progression in this Area is represented as a coherent continuum. The learner grows holistically in their understanding and purposeful use of languages, literacy and communication when listening and reading, when speaking and writing and when interacting and mediating in a wide range of contexts. Learners develop an increasingly sophisticated understanding of linguistic concepts that support the more conscious and self-aware development of skills to communicate effectively	Learners demonstrate progression in the Expressive Arts Area of Learning and Experience (Area) by exploring, experiencing and creating increasingly complex meaning. Linking new learning to existing knowledge develops an increased sophistication of conceptual understanding. Moreover, learners	Progression in the Science and Technology Area of Learning and Experience (Area) is demonstrated by learners exploring and experiencing increasingly complex ideas and concepts that sit within the statements of what matters. Knowledge moves through exploration from a personal understanding of the world to an abstract view that enables learners to conceptualise and justify their understandings. Progression of learning is not linear but cyclical with learners revisiting existing knowledge, linking	Progression in the Humanities Area is demonstrated by learners engaging with an increasing breadth and depth of knowledge and underlying concepts. Learners increasingly develop the capacity to organise and make links across	Communication using symbols Learners should understand that the symbols they are using are abstract representations and should develop greater flexibility with the application and manipulation of an increasing range of symbols, understanding the conventions of the symbols they are using. The introduction and application of a new concept will involve

		principles. This progression supports learners to develop conceptual knowledge and critical understanding in a range of aspects of health and well-being and personal behaviour.	through speech, writing, gestures, images or other media. They also progress in their breadth and depth of conceptual knowledge by encountering ideas in languages and literature, initially in more personal and local contexts and moving as they progress to connect with more complex communications in a multilingual world. Learners thus acquire a gradually more nuanced understanding of different viewpoints and increasing command of the skills needed to interpret, evaluate, articulate and respond to differing perspectives.	learn and refine different types of knowledge and skills including the techniques, processes and skills required to create and interpret in each field of the arts. Additionally, the integral skills of creativity; synthesis; critical thinking; and understanding of social and cultural contexts are crucial to this Area.	this with their new learning, and adjusting schema in light of new discovery.	propositional knowledge, to identify and develop more powerful concepts related to the area of study, and to make supported judgements in more complex contexts. Learners connect new ideas and information to knowledge acquired from previous learning from within and outside school and use it to build an increasingly clear and coherent understanding of the world around them.	developing an understanding of how symbols or expressions are abstract representations that succinctly describe a range of situations, thus contributing to a growing understanding of the nature of mathematics. The introduction of new symbols will add to the breadth of knowledge and the communication with symbols will contribute to refinement and growing sophistication in the use and application of skills
	Deepening understanding of the ideas & disciplines within areas of learning & experience	As learners progress, they develop an appreciation of the significance of a range of aspects of their health and well-being that are contained within the statements of what matters and what can influence these aspects. Viewing different aspects and topics related to health and well-being through the lens of different statements of what matters. As such, progression means learners developing an increasing understanding of how the statements of what	Progression in this Area is a continuum of increasingly complex engagement with ideas and communicative purposes and of development of language awareness. These are demonstrated in: responding to communications when listening, reading, or receiving language in other ways producing them when speaking and writing or through other means of communication.	Progression is demonstrated through the continuing development of the knowledge, skills and capacities required to appreciate, create, explore, respond and reflect both within specific disciplines and in combinations of disciplines. In the early stages, learning is characterised by a growing curiosity for	Progression in this Area includes the development of a deep understanding of the learning expressed within all the statements of what matters within the Area and the complex relationships and connections which exist between them. Investigative skills and domain specific knowledge which are developed within the context of one statement of what matters can be applied in others. Iterative approaches to problem-solving from	Progression within this Area is demonstrated in the early stages as learners experience holistic approaches to exploring the world around them and are supported in shaping an understanding of themselves in the world. Learners	Fluency As learners experience, understand and effectively apply increasingly complex concepts and relationships, fluency in remembering facts, relationships and techniques should grow, meaning that facts, relationships and techniques learned previously should become firmly

		matters interlink and being able to apply these in exploring and understanding a variety of topics and issues.	Drawing on a learner's whole linguistic repertoire – however uneven that may be – enables them to progress in all languages. Understanding linguistic concepts in the language of instruction, for example, can be applied to learning a new language, which facilitates progression in that language as well as improving understanding of the way in which their own languages work. While learners may be at different points of progression in different languages, a focus on plurilingualism allows them to call upon their knowledge of a number of languages to make sense of a spoken or written text, whatever their command of that language, and to increasingly understand and learn from the relationships between different languages.	being creative and innovative by exploring with a range of resources and materials in various domains. Combining disciplines occurs purposefully but remains organic. As learning progresses, learners become increasingly aware of the expressive arts' disciplines and their key features, including (though not necessarily limited to) art, dance, drama, film and digital media, and music. Learners make links in the creative process across the disciplines to explore, create, interpret and respond.	computer science and design and technology can also be beneficial to all sciences. Early stage learning will be typified by a holistic approach to asking questions and exploring the world around the learner, with increasing specialisation at later stages.	will move on to more focused awareness of the lives of others, in their own social context, elsewhere in the world and in different eras. As they move through the continuum of learning, learners have an increased understanding of the defining features of the constituent disciplines (including history; geography; religion, values and ethics; business studies and social studies) and how these can be brought together to provide different lenses through which to view issues and address questions or problems.	established, memorable and usable. Development of fluency and accuracy reflects the refinement and a growing sophistication in the use and application of skills.
	Refining & growing sophistication in the use and application of skills	Progression means learners developing their confidence, motivation competence in a skill, developing increasing accuracy and proficiency. Progression in health and well-being occurs across a wide range of skills, including: physical, emotional,	Progression in the refinement and sophistication of skills moves from literal and simple communicative purpose to more abstract, inferred or implied and nuanced levels of meaning with more complex purposes. Oral language precedes and underpins pre-literacy skills.	Levels of control, accuracy and fluency in using a range of arts' skills will grow as learners progress. For example, in early stage learning this might be characterised by using	Investigation, exploration, analysis, problem-solving, and design are key skills required as learners work along the continuum of learning in this Area. As a learner makes progress, there is increasing sophistication in the way in which they apply	As learners experience, understand and apply increasingly complex concepts, they show an increasing accuracy and fluency in using	Logical reasoning As learners experience increasingly complex concepts, they should also develop an understanding of the relationships

		<p>psychological and social skills. This will also include more practical skills that also support learners in their health and well-being. The development of many skills will rely, to some extent on learners' wider developmental milestones. This is reflected in descriptions of learning: earlier progression focuses on learners developing awareness of a range of skills and later progression supports increasing accuracy, complexity and proficiency in those skills.</p>	<p>Learners gradually develop greater awareness of language and more sophistication in using this awareness to achieve intended purposes in interpreting and producing communications in speech or writing or through other means.</p> <p>For younger learners the acquisition of language follows the same sequence as for older learners, although the speed at which it does so can vary considerably. As learners experience, engage with, understand and apply increasingly complex ideas and language awareness, accuracy and fluency in using communication skills grow.</p> <p>Progression in this Area is also seen in the production of language. As learners become more accomplished, they can adapt and manipulate language to communicate effectively to a range of different audiences. This allows learners to form and develop strong relationships and the confidence to use their voice in society.</p> <p>Second language learners may use formulaic language with few mistakes initially and, as they progress and when being more ambitious and spontaneous in their use of language, they may appear to make more mistakes. This intrinsic part of successful language learning leads to becoming more fluent and accurate language users. Second language or bilingual learners may not necessarily show the same pattern of linguistic progression as first language learners.</p>	<p>simple body movements in composing a dance and identifying fundamental aspects such as speed, direction and levels when evaluating one's own work and the work of others. At a more advanced stage of progress, learners might create and evaluate the success of interaction among various aspects of movement in a complex choreographed dance. As they progress, learners continually develop in depth and refine with a growing sophistication these key arts' skills in different disciplines and/or in interdisciplinary activity.</p>	<p>prior learning in this Area, explore and investigate problems and the resulting formulation of creative solutions. There is a refinement and increasing accuracy in what learners are able to do and produce both in the physical and digital environments.</p>	<p>a variety of skills identified in the descriptions of learning and statements of what matters.</p> <p>As they progress, learners will be continually refining and developing a growing sophistication of key disciplinary skills, including those relating to enquiry such as framing questions and using evidence to construct and support an answer, and relating that to representation and interpretation of enquiry results.</p> <p>Progression in this Area is demonstrated through an ability to work with an increasing number and sophistication of sources of information, and a growing understanding of how to resolve contradictory or conflicting accounts</p>	<p>between and within these concepts. They should apply logical reasoning about these relationships and be able to justify and prove them. Justifications and proof should become increasingly abstract, moving from verbal explanations, visual or concrete representations to abstract representations involving symbols and conventions.</p> <p>Refinement and growing sophistication in the use and application of skills will be demonstrated through the application of increasingly sophisticated logical reasoning. The development of an understanding of relationships between mathematical concepts and the development of justifications and proofs, leads to a growing understanding of the nature of mathematics and helps learners make connections and transfer learning into new contexts. The development of justifications and proof help support the increasing effectiveness of learners.</p>
	Making connections	As learners progress, they develop connections between aspects of health and well-being and a wide	Progression in this Area has a significant inter-relationship with the learning in all other areas. The	Progression in this Area has a significant inter-relationship with the	As learners progress across the continuum they will increasingly be able to make links between	As learners make progress within	Strategic competence Learners should become increasingly independent

	and transferring learning into new contexts	<p>range of topics and issues. This is underpinned by a deepening understanding of the statements of what matters, recognising the underlying common themes and principles between different issues, both within the Area and within learning in other Areas. As learners progress, the variety, complexity and nuance of the contexts they consider increases, in line with their needs, experiences and wider development. Across the continuum of learning, a critical step for learners in health and well-being is transferring understanding from their own well-being to that of others; becoming more socially responsible. Progression means learners developing an appreciation and regard for the needs of others and the impact of decisions, actions and circumstances on them. The development of empathy, care and respect for others is critical to this. As learners become more socially responsible, they progress from primarily considering themselves, to considering others, both in their own relationships with others and in wider local, national and international contexts, developing the capacity of advocacy on behalf of themselves and of others.</p>	<p>learner moves forward along the progression continuum partly through exposure to rich challenges and resources offered by other Areas. The thinking needed to understand and to communicate all learning is closely related to that which enables learners to develop receptive, interpretive and expressive language skills. They progress in the languages, literacy and communication set out in this Area alongside the development of disciplinary literacy in the other curriculum Areas. The ability to transfer existing knowledge and skills into new contexts is an integral part of progression in this Area. This includes the social and cultural aspects of language. As learners develop an understanding of additional languages, patterns of language use are identified, adapted and applied in new contexts. Modes of communication are adapted for different audiences, and to different disciplinary contexts. Skills in learners' first and second languages enable learning in subsequent languages. As learners progress, they will be able to make links within and between ways of communicating, making good choices about effective methods of communication.</p>	<p>learning in all other areas. The learner moves forward along the progression continuum partly through exposure to rich challenges and resources offered by other Areas. The thinking needed to understand and to communicate all learning is closely related to that which enables learners to develop receptive, interpretive and expressive language skills. They progress in the languages, literacy and communication set out in this Area alongside the development of disciplinary literacy in the other curriculum Areas. The ability to transfer existing knowledge and skills into new contexts is an integral part of progression in this Area. This includes the social and cultural aspects of language. As learners develop an understanding of additional languages, patterns of language use are identified, adapted and applied in new contexts. Modes of communication are adapted for different audiences, and to different disciplinary contexts. Skills in learners' first and second languages enable learning in subsequent languages.</p>	<p>current learning and other experiences and knowledge developed within and beyond this Area. This will include making links with knowledge and experiences from outside the school environment. Problems within science and technology involve ethical or moral dilemmas and it is an increased understanding in the way in which these dilemmas are or even should be approached which will signify progression. Learners will develop the capacity to apply their learning in science and technology to inform their thinking and action beyond the classroom.</p>	<p>this Area, they will be asking increasingly sophisticated enquiry questions. They will show a greater independence in finding suitable information, making informed predictions and hypotheses, and making judgments including about reliability and utility. They will also become more able to effectively work with others, especially, but not limited to, taking part in social action.</p>	<p>in recognising and applying the underlying mathematical structures and ideas within a problem, in order to develop strategies to be able to solve them. Recognising mathematical structure within a problem and formulating problems mathematically in order to be able to solve them relies on an understanding of the ideas and disciplines within areas of learning and experience alongside a depth of knowledge. It also supports making connections and transferring learning into new contexts and developing increasing effectiveness as a learner. The recognition of the power of mathematics in enabling the representation of situations should lead to a growing appreciation of the usefulness of mathematics.</p>

Distance Learning and Gwaith Catref

Throughout the pandemic distance learning developed immensely and since a full return to schools the strategies have been brought together :-

As our Distance and Blended Learning Policy, should we required any further sustained distance/home learning periods.

As effective pedagogy within the classroom and to support the development of facilitated and independent learning

As part of our Gwaith Catref policy.

Using Google Classroom as our main platform, asynchronous and synchronous teaching is used to enable learning.

Pupils within middle and upper phase regularly work on Google platforms and upload their evidence of learning onto their Google Classroom.

All Gwaith Catref is shared, and evidence of learning uploaded to the pupils Google Classroom.

Gwaith Catref is posted twice a term.

The first shares the theme, special events, days and weeks and asks pupils and parents to explore and share the pupils interests.

Following pupil voice staff plan and post 10 cross AoLE learning tasks linked to the theme.

Pupils are asked to complete at least 5 throughout the term. At the end of the term each class holds a sharing and celebration of Gwaith Catref afternoon.

Extra-Curricular & Learning with our community

When able we offer a wide range of extra-curricular clubs from sports, fitness to gardening, cooking, games, and construction.

Pupils in upper phase, particularly year 6 lead clubs for younger pupils.

Continuous Cycle of evaluation, development and improvement and continuous professional learning and development through Developing Excellence Model

Model for developing excellence updated 2022-23 School Monitoring and Evaluation		
Activity	Focus	When
Use of Professional Standards / PLP for Performance Management and Professional Development	Follow PM Policy Staff use standards as part of their personal development work.	Autumn set objectives Spring Review Progress Summer evaluate achievement
Viewing Evidence of Learning Books / digital platforms	Progress Standards Differentiation Coverage Progress AFL/ Marking	Staff meetings Cluster work and events
SDP leadership responsibility and teamwork	SDP Area leads Rapid Action Task Time	Ongoing through professional learning and leadership release. End of term and as required time to monitor and evaluate.
Sharing Good Practice	Pedagogical developments – identified from T&L reviews SDP related	Planned as part of SDP Rapid Action Plans Dynamically following professional learning / teaching and learning reviews.
Termly Teaching and Learning reviews Use of bespoke ETLF	Use of observations, viewing video evidence of teaching and learning, learning walks, evaluation of evidence of learning and listening to learners Two areas of ETLF SDP Llantarnam essentials	Two-three weeks identified each term. SMT/SLT spend ½ day undertaking the review with a member of staff.
Llantarnam essentials	Regular review – update SLT Regular review with staff	Revision and Reinforcement first training day of the year and revision as required when monitored and evaluated by area leads at the end of every term.
Renamed – Professional Learning Teams / pairs ETLF	SDP focus or General Pedagogical Development Use of observations, viewing video evidence of teaching and learning, learning walks, evaluation of evidence of learning, listening to learners, professional discussions.	Termly. Each group allocated ½ -1 day with a specific focus linked to school development. Outcomes feeds sharing of best practice and or further school development priorities.
Phase Teams Planning and teaching	Termly Theme Planning – PPA teacher and phase teachers Planned immersion activities /days/weeks Pupil Voice – built on to produced theme planning	Phases are provided with staff meeting time to plan immersion – learning activities and homework. On completion of the work staff are given another meeting to plan the rest of the themes learning based on Pupil Voice.
Professional Learning Enquiry teams	Annual enquiry based on SDP priorities/ pedagogical developments	Teams are provided with at least 1 day per term to devise question and then plan and

		undertake the research and evaluate outcomes.
Development of Leadership	New TLR's /ALN status SLT national accredited course Middle Leader development New core/AoLE leads Ongoing whole school training and development as required in line with SDP / National Developments alongside focused individual professional development.	All staff are introduced to the wealth of regional, national, cluster and school based professional development opportunities at the beginning of the academic year. This is further explored during performance management.
SLO- School as a Learning Organisation	Evaluate results and build actions into SDP	Annual survey analysed, shared with staff and priorities built into SDP action1
Governor with Phase Staff SDP meetings	Monitor and Evaluate SDP plan into actions within the classrooms To hold staff and head teacher accountable for school improvement actions Meeting 1 – awareness and plan for actions Meeting 2 – actions and impact	Autumn 2 meeting 1 Governors meet with Phase teachers with focus on plans for implementing and or working on the school development priorities within classes. Support required is also a focus. Summer 2 meeting 2 Governors meet with phase teachers to discuss progress classes and phases have made in relation to school development and next steps.
Governors – School Improvement and Performance Committee Stakeholder surveys – parents, staff and pupils	Monitor and evaluate school improvement and wider school processes and policies	Committee meets once every half term. Part of the committee's work is to create, roll out analyse and agree actions to follow from stakeholder surveys.
